

**Project Name:**  
**Jurisdictional Review of Land-use and Land Management Policy**

<b>Project Location:</b>	Canada, USA, Australia	
<b>Client(s):</b>	Alberta Sustainable Resource Development SREM Office	
<b>Date Completed:</b>	July 2007	
<b>Project Budget:</b>	\$200,000	

**Project Summary:**

Conducted a multi-jurisdictional review of Canada, US and Australia regarding land use management policies. Involved development of a questionnaire, research guide/handbook and administration of questionnaire. The goal was to inform and improve Alberta's new land-use framework.

**Services Provided:**

- \* Design questionnaire forms and interview guide to aid in the collection of information that would be most relevant to Alberta's regulatory and land-use framework.
- \* Assist with conducting the survey using Adobe™ Forms electronic survey submission system
- \* Analyse results and determine which information had the most relevance to Alberta's framework
- \* Provide recommendations for improvements to Alberta's land-use framework based on the analysis.
- \* Assist with workshops designed to disseminate and improve the recommendations..

**Deliverables or Results:**

- \* Questionnaire response forms.
- \* A report identifying information in the survey responses that would be relevant to improving Alberta's land-use and land management framework.
